

VOL XXIV. NO. 6962.

HAVE YOU SEEN

CRAZY ELLA CARVER

To Be Committed to the Mid-
dletown State Hospital.

WALKED FROM HERE TO PORT JERVIS

Slept Monday Night in a Signal Tower
—Cared for in Port Jervis—Her Home
is in Binghamton—Has Been in
an Asylum.

The Port Jervis authorities instead of

trying to get rid of Ella Carver, the

insane woman, who was run out of this

city, Monday, and so save the town or

village a few dollars of expense, made an

effort to communicate with her friends.

They ascertained that her name was

Miss Ella Carver Carpenter and that her

home was in Binghamton. She was at

one time a patient in the Binghamton

State Hospital and was discharged as

recovered, after which she left Binghamton

and went to New York.

A brother of the unfortunate woman,

who lives in Binghamton, was communicated

with by telegraph. He answered

that he was not able to take care of her,

and arrangements are being made, this

afternoon, for her commitment to the

State hospital here.

From Port Jervis it is learned, to-day,

that Miss Carver was found walking the

tracks near Port Jervis, Tuesday night,

and a train had to be stopped to prevent

running over her. She was taken to

Port Jervis on the train and spent the

night in the hospital.

She reached Collins' switch, this side

of Port Jervis, Monday night, and re-

mained under the protecting care of the

operator all night. He says that she

showed him a large sum of money, which

was hidden in a pocket in her dress.

The following is from the "N.Y. Star":

A young woman good looking, well

dressed and about twenty, who called

herself Ella Carver, with a rich voice at

Passeau, N. Y., Sunday. The

young woman was walking along the

Emerson between Suffern and Mahwah,

and apparently was a demure person.

Officer Smith escorted his erstwhile

protector to the railroad depot with

the idea of getting her story. But pretty

"Miss Carver" began to question Officer

Smith's authority and made a strong

effort to escape. Finally she gave in

and besides giving the information

stated above she said that Scranton was

her destination and she was walking al-

ong the road when she was stopped by

Officer Smith. At Suffern, when she

said her folk were well off,

Officer Smith released her from his charge.

The last seen of the queer acting young

woman at Suffern, was when she board-

ed a west bound Erie train.

WOMEN'S STUDY CLUBS.

The Union Meeting at Mrs. Frank O.

Tompkins', To-morrow Afternoon.

The seven women's study clubs of this

city will close the season with a union

meeting at Mrs. Frank O. Tompkins'

Don't use
an imitation—especially imitations of Pearline. Many are dangerous. And dangerous washing powders can never be cheap—no matter how little you pay for them. Peddlers and untrustworthy grocers will tell you the stuff they offer is "Pearline," "same as," "as good as," "made in the same factory," etc. It's false.

Pearline is the standard washing compound; never peddled; gives no prizes; simply stands on its merits as the best, safest, and most economical.

THE SUGAR INDUSTRY.

Secretary Wilson Reports the Result of His Southern Trip.

WASHINGTON, May 24.—Secretary Wilson has returned from his visit to Louisiana and Texas, which was made in conformity with the wishes of the president for the purpose of looking over the sugar, rice, tobacco, fruit, cotton, grazing and other industries of that region. He reports very cordial co-operation on the part of the producers of those states in giving him facilities for seeing everything along these lines.

Speaking of the sugar industry, the secretary said:

"Very extensive improvements have lately been made in the sugar factories in anticipation of a life and death struggle with sugar countries where labor is cheaper and conditions quite as favorable. The actual condition today is that of admirable preparation for handling a large crop, with a prospect, however, of the present crop being cut down 50 per cent by the frosts of last winter."

"There seems to be very good reason for the sanguine disposition of capital and enterprise to produce sugar, tobacco and rice in the Gulf states, particularly sugar, as it has been ascertained through extensive experimentation carried on by the department of agriculture that nearly all the northern states from New York to California are well suited for the production of sugar from beets."

The secretary reports that he found the tobacco and peach industries gaining a firm foothold in Texas and that both are proving profitable. In some localities there is as much as 1,400 acres of fine Cuban tobacco in cultivation. He found land generally enhancing in value.

WASHINGTON, May 24.—The president personally received the battalion of the Chinese naval reserves from Philadelphia, which came here to participate in the peace jubilee parade.

The railway tracks have been repaired, and the first train reached San Fernando yesterday morning.

The Spanish newspaper Oceanus has been suppressed by the military authorities and its editor put under arrest for publishing objectionable articles.

Brigadier General Williston, who arrived in command of the troops of the Sixth artillery, will succeed General Hughes as provost marshal of Manila. General Hughes has been assigned to duty in the Visayan islands.

The departure of the First California infantry for home has been prevented by a typhoon.

Rosario, a wealthy resident of Manila, member of the Filipino congress and formerly Aguinaldo's commissary general, accompanied by an insurgent captain called upon General Otis yesterday and formally surrendered. He was liberated on parole. Rosario has been closely watched by the officials at Tarlac since the insurrection began, was weakened and only escaped to send his personal agent to Manila to collect funds.

The typhoon has been a peculiar factor in every day rainfall here, and he was never needed until dividends began to be the "whole thing."

Turning from the dago to the "coons," have you noticed that it is quite the thing nowadays to advertise some particular line of goods in store windows with the aid of the figure of a diminutive darky? A red necklace on a swell drink or a camera held by a "coon" whose eyes roll automatically prove attractive in North street windows nowadays. A West Main street firm also found that the ladies said that their "coons" in the windows was "very cute."

A few years ago the "coons" and the son of Erin drove the spikes and he-hewed the rails. Now they are the "hosers." When the dago gets promoted who will be in the gang?

There were a number of exceptionally sensible Indians among those "indians." They asked where the dry goods stores were as soon as they reached here and they took home bundles after the show—and they were not costumes either. It was an excursion and a shopping expedition for them.

The Cabinet Bears Otis' Report.

WASHINGTON, May 24.—General Otis' report, received by mail and read by the president at the cabinet meeting yesterday, is pronounced by those who heard it a most interesting summary of the situation in the Philippines. In the main it presents the subject from the military standpoint, but probably the most important contribution is that covering the correspondence between General Otis and Aguinaldo just preceding the outbreak, showing conclusively that the American commander used every effort to avoid a conflict. The communications from Aguinaldo bear his signature and give little evidence of a conciliatory spirit or a disposition to accept American rule.

Dewey's First Hat.

HONGKONG, May 24.—The United States cruiser Olympia, with Admiral Dewey on board, has arrived here from Manila. She was saluted by the ships of all nationalities. Admiral Dewey, Captain Lambert, Lieutenant Brumby and United States Consul Wildman were received by a guard of honor of the Royal Welsh fusiliers when they landed to visit the governor of Hongkong, Sir Henry A. Blake; Major General Gascoigne, in command of the troops, and Commodore Powell commanding the naval forces. The visit was afterward returned by the officials mentioned. Admiral Dewey is in bad health, being too ill to attend the queen's birthday dinner. The Olympia will be here and will remain ten days at this port.

The Cabinet Bears Otis' Report.

WASHINGTON, May 24.—General Otis' report, received by mail and read by the president at the cabinet meeting yesterday, is pronounced by those who heard it a most interesting summary of the situation in the Philippines. In the main it presents the subject from the military standpoint, but probably the most important contribution is that covering the correspondence between General Otis and Aguinaldo just preceding the outbreak, showing conclusively that the American commander used every effort to avoid a conflict. The communications from Aguinaldo bear his signature and give little evidence of a conciliatory spirit or a disposition to accept American rule.

Dewey's First Hat.

HONGKONG, May 24.—The United States cruiser Olympia, with Admiral Dewey on board, has arrived here from Manila. She was saluted by the ships of all nationalities. Admiral Dewey, Captain Lambert, Lieutenant Brumby and United States Consul Wildman were received by a guard of honor of the Royal Welsh fusiliers when they landed to visit the governor of Hongkong, Sir Henry A. Blake; Major General Gascoigne, in command of the troops, and Commodore Powell commanding the naval forces. The visit was afterward returned by the officials mentioned. Admiral Dewey is in bad health, being too ill to attend the queen's birthday dinner. The Olympia will be here and will remain ten days at this port.

McPartland Whips Sullivan.

NEW YORK, May 24.—After 25 rounds of fast and vicious fighting at the Lenox Athletic club last night "Kid" McPartland was given the decision over "Spike" Sullivan. Going into the fight on the short end of the betting, McPartland completely upset the calculations of the sports.

THE SUGAR INDUSTRY.

Secretary Wilson Reports the Result of His Southern Trip.

WASHINGTON, May 24.—Secretary Wilson has returned from his visit to Louisiana and Texas, which was made in conformity with the wishes of the president for the purpose of looking over the sugar, rice, tobacco, fruit, cotton, grazing and other industries of that region. He reports very cordial co-operation on the part of the producers of those states in giving him facilities for seeing everything along these lines.

Speaking of the sugar industry, the secretary said:

"Very extensive improvements have lately been made in the sugar factories in anticipation of a life and death struggle with sugar countries where labor is cheaper and conditions quite as favorable. The actual condition today is that of admirable preparation for handling a large crop, with a prospect, however, of the present crop being cut down 50 per cent by the frosts of last winter."

"There seems to be very good reason for the sanguine disposition of capital and enterprise to produce sugar, tobacco and rice in the Gulf states, particularly sugar, as it has been ascertained through extensive experimentation carried on by the department of agriculture that nearly all the northern states from New York to California are well suited for the production of sugar from beets."

The secretary reports that he found the tobacco and peach industries gaining a firm foothold in Texas and that both are proving profitable. In some localities there is as much as 1,400 acres of fine Cuban tobacco in cultivation. He found land generally enhancing in value.
